Exmoº Senhor Ricardo Santos,

Director dos Recursos Humanos da BNP Paribas Corporate & Institutional Banking

Avenida da Liberdade, 222

1250-148 Lisbon, Portugal

I am writing to express my strong interest in joining the **IT Risk and Cyber Security** team at **BNP Paribas CIB**. Having recently completed my academic journey with a Bachelor's degree in **Computer Engineering** from **Universidade Lusófona**, followed by a **Master's in Cybersecurity**. I am eager to apply my technical knowledge and passion for digital security in a dynamic, forward-thinking environment.

For me, BNP Paribas represents the ideal place to begin a career in cybersecurity. As the **leading bank in the European Union**, with operations in **63 countries**, BNP Paribas combines global impact with a strong local presence in Portugal, where over **8,700 professionals** are part of a collaborative and innovative ecosystem.

I'm especially drawn to the bank's commitment to **IT risk management** as a strategic priority, and the opportunity to contribute to meaningful projects that protect critical systems, ensure compliance, and support business continuity. Additionally, BNP Paribas' culture of **diversity, inclusion**, and **smart working** aligns with my values and the kind of professional environment where I believe I can grow and thrive.

During my studies, I focused on areas such as **network security, ethical hacking, cryptography**, and **risk analysis**, gaining hands-on experience with tools and methodologies relevant to real-world cyber defense. My academic projects included developing a penetration testing lab and conducting simulated audits using ISO 27001 frameworks, which gave me practical insights into IT governance and operational security.

I consider myself a proactive, detail-oriented individual with a strong ethical mindset and a natural curiosity for evolving threats and technologies. I'm motivated to learn continuously, work collaboratively, and contribute to a team where I can both add value and develop further under the guidance of experienced professionals.

I would be very happy to discuss how I can contribute to your team, and I'm available at your convenience for an interview. Thank you for considering my application—I look forward to the possibility of joining BNP Paribas and contributing to its mission of building a safer digital future.

Kind regards,

Gonçalo Costa de Almeida
